To whom it may concern

The opening of Aarhus Academy for Global Education on 1 November 2011 fulfils the ambition of creating world-class international education in Aarhus from pre-kindergarten to Ph.D.

COWI believes strongly in the importance of Aarhus becoming an even more open and internationalized city. Offering international families and children an inspiring framework for learning and growing is a very important step in that direction.

In COWI we look forward to seeing Aarhus Academy for Global Education develop and succeed and we wish to underline that COWI appreciates the establishment of Aarhus Academy for Global Education and will continue to support it in every way.

Yours sincerely

Søren Adamsen

Senior Market Director, Denmark
