

# LANGKAER

GYMNASIUM / HF / IB WORLD SCHOOL

Marts 2012

Langkaer Gymnasium offers the International Baccalaureate Diploma Programme (DP) and is therefore an IB World School. We are very pleased that AAGE offers the IB Primary Years and Middle Years programmes (PYP & MYP). This means that all of the IBO's educational programmes are represented in Aarhus and that together schools offer the best, qualified International educational programme to children of all ages.

We can warmly recommend parents that their children receive an international primary and lower secondary education at AAGE. This recommendation is not only for international parents, but also Danish parents who are internationally oriented and want to ensure their children a world class education. To ensure the best transition between the MYP and the DP, Langkaer and AAGE will establish a qualified transition programme so that students will experience the transition in a positive way.

Management and staff of the two schools will also inspire each other with the purpose of securing students the best possible international education.

Anders Østergaard
