Aarhus Academy for Global Education Denmark

To whom it may concern

Jydsk Emblem Fabrik A/S supports Aarhus Academy for Global Education

Aarhus is well known as an international city with world class education. International students from Denmark and abroad move to Aarhus because of the great and inspiring student environment the educational institutions offer.

Aarhus Academy for Global Education (AAGE) marks Aarhus as an international city that offers great opportunity for students and employees from modern international families to grow and develop through the well reputable high-level education programmes.

The story behind AAGE is noteworthy and inspiring. A strong passion for high quality education, flourishing and inspirational environment, social responsibility, support of local community correlates with spirit of Jydsk Emblem Fabrik A/S and consequently we appreciate and support AAGE.

We strongly recommend AAGE to both international families and Danish families who consider living abroad and/or wish to provide their children with an unique international education. We are looking forward to follow AAGE in the future.

Yours sincerely

JYDSK EMBLEM FABRIK A/S
