

Aarhus Academy for Global Education  
Att. Leeanne Wootten-Neumann, Head of School  
Bushøjvænget 133  
8270 Højbjerg  
Denmark

J.nr.: U0100-5-01-1-12

Ref.: HM/anra

Dato: 26 January 2012

In November 2011 the City of Aarhus took a big step in its ambition to be a high-standard international community. The opening of the prestigious Aarhus Academy for Global Education is the result of hard working and insisting people who strive for making Aarhus an even more attractive place to work or to study for international families.

VIA University College is the centre of all professional bachelor degree programmes offered in Central Jutland in Denmark.

Several of our programmes are offered in English.

The integrated IB-certified educational program will serve our international guests as the perfect platform for their children's education, learning and well-being. And in addition to this international aspect the academy as world-class role model without doubt will bring educational and pedagogical innovation to the general school sector in Aarhus. The academy is an important locomotive for all educational development in Aarhus.

VIA University College warmly welcomes the new academy. As the region's provider of new teachers and pre-school educators we look forward to initiate cooperation in many fields, such as joint research activities, participation in European and global projects, internship for our national and international students, intercultural and democratic dialogue, language training etc. VIA University College will do all what is in our hands to support the academy in growing as a successful and integrated institution in Aarhus, with full program from preschool to lower-secondary education. The initiative and the city deserve it!

With kind regards  
VIA University College

Harald E. Mikkelsen  
Rector
